"A" and "B" Standard

"A" - athletes who attain the Olympic Trials "A" standard will automatically be included in the event. *

"B" - athletes who attain the Olympic Trials "B" standard will be included in the event only if additional competitors are needed to fill the stated field size (i.e., not enough athletes have attained the "A" standard). *

* - subject to the Qualifying Guidelines, entry process, and declaration process. If the "B" standard is used, only the number of athletes needed to fill the stated field size will be included in the event. In this case these "B" standard athletes will be invited for inclusion **only** after the close of declarations.

Field sizes are the approximate number of desired participants in each event (not the minimum).

NATIONAL CHAMPIONSHIP EVENT

Women's 3000 meter Steeplechase

The Women's 3000m Steeplechase will be conducted as a USA National Championship event during the 2004 U.S. Olympic Team Trials - Track & Field.

- Female athletes who wish to compete in the 3000 meter Steeplechase must follow the same entry/declaration procedures as those athletes competing in the 2004 U.S. Olympic Team Trials – Track & Field.
- The qualifying standard is 10:00.00 and must have been attained between January 1, 2003 & July 1, 2004.
- Funding for these athletes will be the same as that for Olympic Trials events.

2004 OLYMPIC TRIALS QUALIFYING GUIDELINES

1. All qualifying performances for running events must be made in competition on a standard outdoor track or during the 2004 indoor season on an indoor track in the same event. Qualifying performances for walking events must be made on a USATF-certified road course, standard outdoor track, or an international road course certified by the appropriate authority.
2. All qualifying marks must be attained between January 1, 2003 and July 1, 2004.
3. Qualifying marks must be made and verifiable in one of the following:
 - a. USATF- or IAAF-sanctioned events
 - b. collegiate meets where events conform to or exceed USATF competition rules
 - c. high school meets except dual and triangular events
4. Fully automatic timing (F.A.T.) is the only method of timing acceptable for qualifying marks for events equal to or shorter than 400 meters.
5. A manual time may be used for qualifying for events of 800 meters and longer only if no F. A. T. is available. No timing allowance for qualifying will be made for hand times.
6. Wind-assisted performances will not be accepted. There is no adjustment for altitude.

Qualifying marks must be attained in events being contested at the Olympic Trials. There is no qualifying with alternate events (i.e., you cannot qualify for the 1500m with a Mile time) except in specific cases involving the special qualifying regulations listed in this handbook.

Notification of the method of funds distribution will be provided at a later date.
- ◆ The top 12 finishers at the Olympic Trials, not previously qualified for funding based on their 2003 performance, will receive \$1,000. These athletes will receive their checks after drug test results from the Olympic Trials have been received and confirmed.
- ◆ Athletes whose entry into the Olympic Trials is based solely on the “automatic qualification” provision are not eligible to receive funding based on the automatic qualification unless they have also met the criteria listed above.

Such penalties may result in a period of ineligibility as well as disqualification from the Olympic Trials. Any substance taken by an athlete is at his/her own risk and may result in a positive sample. **(This includes cold medicines, nutritional supplements, and some over the counter medicines).** Information on drugs and medications and about drug testing may be obtained by calling the USADA Drug Reference Hotline at **800-233-0393** or visiting the USADA website: www.usantidoping.org

OLYMPIC TRIALS COMPETITOR'S CLOTHING POLICY

COMPETITOR CLOTHING

Athlete competition attire, warm-up attire, and other apparel worn at any 2004 U.S. Olympic Team Trials (Olympic Trials) are governed by United States Olympic Committee (USOC) and International Olympic Committee (IOC) regulations. Per USATF's agreement with the USOC, the athlete clothing policy for the Olympic Trials will allow both club names and a manufacturer's name/logo on an athlete's attire. The size of the club name and manufacturer's name/logo must meet IAAF guidelines (outlined below).

It is the responsibility of the athlete to ensure his/her clothing meets these requirements. Strict adherence to these Olympic Trials rules will be enforced at the competition - if your attire does not meet these requirements, you will not be permitted to wear it in the Olympic Trials.

Only clubs registered with USATF in 2003 are eligible to have their club name on the competition or warm-up attire at the Olympic Trials and in order for athletes to be permitted to wear the club uniform at Olympic Trials events, their club must be a registered 2004 USATF club. Clubs registered in 2002 or earlier, or registering for the first time, may apply for a waiver of this restriction, which must be approved in writing by the USATF Events Department. If you wish to apply for a waiver or have any questions about these rules and regulations, please contact Kelly Schulte at the USATF National Headquarters (317-261-0478 x325).

UPPER-BODY ATTIRE

Manufacturer's Logo and Club Identification

Competition attire (**vests/leotards**) worn by an athlete on the upper body may carry a manufacturer's logo on the left chest, which may be a maximum of a 30cm² rectangle with the lettering a maximum height of 4cm and the total logo a maximum height of 5cm. **The manufacturer's logo may appear only once on vests/leotards.** (See diagram)

Other competition and warm-up attire (**track suit tops, t-shirts, sweatshirts, rain jackets**) worn by an athlete on the upper body must conform to the same regulations as the vests/leotards, except the size of the manufacturer's logo display on such attire may be a maximum of a 40cm² rectangle.

In addition, an athlete who is a member of a duly registered club (as described above) may, on their upper-body attire, have the **club name** appear once on the front or back of the shirt or singlet in letters a maximum of 4cm high but not restricted in width. The size of the identification is considered to be the size while worn by the athlete. (See diagram)

LOWER-BODY ATTIRE

Manufacturer's Name/Logo

The manufacturer's name/logo is the only identification that may appear on lower-body competition attire (**shorts, tights**), and it may be a maximum of 20cm² in area, with a maximum height of 4cm and may appear only once.

Socks may also have the manufacturer's name/logo displayed once, with a maximum size of 5cm² in area, and a maximum height of 2.5cm.

Other competition and warm-up attire worn on the lower body is subject to the same requirements as that for the competition attire for the lower body.

The identification of the name/logo of the manufacturer on **other apparel** such as headgear, hats, headbands, gloves, armbands, wristbands, glasses and sunglasses is limited to one identification mark, which may be a maximum size of 6cm².

EXCLUSIVE COMMERCIAL RIGHTS OF THE UNITED STATES OLYMPIC COMMITTEE

All commercial rights to the 2004 U. S. Olympic Team Trials (Olympic Trials), including but not limited to broadcast, internet, photography, sponsorship and advertising, are under the exclusive jurisdiction of the United States Olympic Committee (USOC). For the participating athletes in the Olympic Trials, this includes the following:

All broadcast rights, including but not limited to television, film, radio and the internet, are strictly controlled by the USOC. All persons are prohibited from using any photographs, videotape or other audio and/or audiovisual recordings of the Olympic Trials on the Internet or for commercial purposes without prior written consent of the USOC. ***In other words, no one is allowed to make commercial use of any photographs or videos or any digital recordings/pictures of the competition on the internet or in any other medium without prior written permission.***

Participating athletes must follow the “Competitor’s Clothing” policy outlined elsewhere in this entry handbook. ***This must be strictly adhered to, and a participant will not be permitted to compete in a uniform that does not meet these requirements.***

All participating athletes must explicitly sign or acknowledge a “Name and Likeness” waiver that provides the USOC the right to reproduce, publish and otherwise distribute, in any medium, the names, pictures, likenesses and voices, as well as any biographical material (as applicable) of the participants in the Olympic Trials. The USOC, however, is NOT permitted to use this right in a manner that suggests an endorsement of any product or service, or of any other event, without the written consent of the individual involved. ***The “Name and Likeness” waiver will be agreed to during the entry process on-line.***

A sponsor, supplier or licensee of any participant is not permitted to publicize its association with the participating athlete in a manner that suggests a relation to the 2004 Olympic Games, the Olympic Trials, the U.S. Olympic Team or the USOC, and is not permitted to use any Olympic-related marks, words or designations in advertising or other promotional activities. ***No sponsor, supplier or licensee may use any “O” word terminology in any publicity or promotion with you.***

No “Ambush Advertising” is allowed. This means there can be no commercial identification of any product or service or any promotional matter of any kind (e.g., name, logo, trademark or trade name of any third party) to appear in: (a) camera-visible competition areas of the Olympic Trials, (b) on the uniforms or on the bibs/numbers of the competitors, except as outlined in the “Competitor’s Clothing” policy elsewhere in this handbook, or (c) in camera-visible areas that are located in proximity to the site of the Olympic Trials (e.g., warm up area, start and finish areas, etc.) that are controlled by the organizers. ***Only commercial identification outlined in the competitor’s clothing policy is allowed in or near the competition site. An on-course sign (hand-held or otherwise) with any commercial identification is not allowed.***

If you have any questions regarding these rights, please contact Kelly Schulte in the USATF Events Department at 317-261-0478 x325.

U.S. OLYMPIC TRACK & FIELD TEAM SELECTION PROCESS

The U.S. Olympic Track & Field Team will be selected as follows:

INDIVIDUAL EVENT SELECTIONS

An athlete's rank order of finish in a designated event at the Olympic Trials and the number of athletes who have achieved the Olympic "A" qualification standard will be used to select the U. S. Olympic Track & Field Team.

The following criteria will be used to nominate athletes to the 2004 U.S. Olympic Team:

- ◆ **Order of Finish:** All athletes competing in an Olympic Trials event will be assigned a rank based upon the order of finish for that event. An athlete must finish each event in which she/he is entered (declared) in order to be assigned a rank. Rank order of finish for an individual event will be established as follows:
 - **Running Events**
 - 1) Athletes competing in the final round of competition will be assigned a rank based upon their place-finish in the finals.
 - 2) Athletes participating in the semifinal round of competition will be assigned a rank based upon the fastest time achieved in the semifinal round.
 - 3) Athletes finishing in a preliminary round of competition will be assigned a rank based upon the fastest time achieved in the preliminary round.

4) **An athlete's final ranking will be based upon the highest round completed by an athlete.**

- **Field Events**

- 1) Athletes participating in the final round of competition will be assigned a rank based upon their place-finish in the finals
- 2) Athletes finishing the qualifying round of competition will be assigned a rank based upon the athlete's best mark. **An athlete's ranking will be based upon the highest round completed by an athlete.** If there is a tie in a field event, excluding the high jump and pole vault, the tie will be broken by selecting the athlete with the best second mark. Ties in the high jump and pole vault will be broken by a jump-off, to the extent that it is necessary to nominate a team member in that particular event.

- ◆ **Olympic "A" Standard:** The number of athletes who have achieved the Olympic "A" standard in a designated event will determine the number of athletes who will be nominated (up to 4) to the U.S. Olympic Team for that event.

- ◆ **For all track & field events:**

- 1) No later than July 18, 2004, USATF will nominate to the USOC the names of four athletes in each individual event. These athletes are then considered to be candidates for the Olympic Team. Only these athletes may subsequently be entered to compete and thereby become official Olympic Team members, based upon the qualifying standard met by these individual athletes.
- 2) These four candidates are selected by virtue of their place of finish at the Olympic Trials and qualifying standards that they have achieved after January 1, 2003.
- 3) If there are four or more athletes who have achieved the "A" standard in an event, then the top four "A" qualifiers will be nominated as candidates in rank order of finish from the Olympic Trials.
- 4) If there are fewer than four athletes who have achieved the "A" standard, then all those who have achieved the "A" standard will be nominated as candidates. To fill out the list of four candidates, the highest-placing finishers who have achieved the "B" standard will be nominated in order of finish at the Olympic Trials. If there are not enough "B" standard athletes to fill the list of four Candidates, then the highest-placing finishers at the Olympic Trials who are without a standard will be added to the list of four candidates in order of finish at the Olympic Trials.
- 5) All athletes who are listed as Olympic Team Candidates on July 18, 2004 will have until August 9, 2004 to achieve an Olympic Games qualifying mark ("A" or "B" standard). Only these athletes may subsequently be nominated to the Olympic Team, based upon the qualifying standard met by these individual athletes.
- 6) At the close of the qualifying period on August 9, 2004, the Olympic Team will be determined based upon qualifying standards met by the candidates.

- 7) If two or more athlete candidates in an event have met the Olympic “A” standard by August 9, 2004, those athletes (up to 3) will be nominated to the 2004 U.S. Olympic Team in rank order of finish from the Olympic Trials.

- 8) If only one athlete candidate in an event has met the Olympic “A” standard by August 9, 2004, only the highest placing athlete who has met either the “A” or “B” standard will be nominated to the 2004 Olympic Team.

REPLACEMENT OF ATHLETES

An athlete who withdraws from the team after July 18, 2004 will be replaced by the next eligible nominated candidate who has achieved the Olympic Games qualifying standard, in rank order of finish at the Olympic Trials.

DISCRETIONARY SELECTION

Relay Team members are the only athletes who will be selected by discretion.

The Relay Coach (es) will recommend to the Head Coach the athletes nominated for the relay pool. The decision will be based on the judgment of the Relay Coach (es) as to athlete’s ability to contribute to the success of the relay team at the 2004 Olympic Games. The Relay Coach (es) will also take into consideration an athlete’s ability to:

- 1) pass and receive the baton with either hand
- 2) run the turn and/or straight leg
- 3) any other event(s) in which an athlete(s) may be scheduled to participate.

In the event that the Head Coach and the Relay Coach (es) disagree with the relay team recommendation, the appropriate sport chair (Men or Women’s Track & Field Committee) will be brought in to cast the deciding vote. If the appropriate sport chair (Men or Women’s Track & Field Committee) is unavailable or unreachable, the decision of the Head Coach will be upheld.

There will be mandatory relay training for members of the relay pool. Athletes will be notified of such mandatory training upon being selected to the relay pool.
