- C. Provide a comprehensive, step-by-step description of the method that explains how athletes will go through the selection process to become Team nominees (including maximum Team size).

The philosophy of USATF is to send the maximum number of athletes allowed by IAAF rules. The maximum team size is 141 athletes. USATF's selection system is designed to have athletes select themselves in individual events. As it relates to relay events, the selection process provides the 2012 U.S. Olympic Team relay coach, in ongoing communication and consultation with the Chief of Sports Performance, with the discretion necessary to select the best possible relay team.

Individual event selection:

1. Rank Order of Finish: All athletes competing in a 2012 U.S. Olympic Team Trials event will be assigned a rank based upon the order of finish for that event. An athlete must **compete in** each

event in which she/he is entered in order to be assigned a rank. Rank order of finish for an individual event will be established as follows:

Running events: 1) Athletes participating in the final round of competition will be assigned a rank based upon their place- finish in the final (top eight finishers, plus ties) of that event; 2) Athletes that do not qualify for the finals will establish their rank order position based on the fastest time achieved in the semi-final round; and 3) Athletes that do not qualify for the semi-finals will establish their rank order position based on the fastest time achieved in the preliminary rounds. An athlete's final ranking will be based upon the highest round completed by an athlete. For relay events see section II. In case of a tie, the following procedure shall be used for breaking a tie for the final qualifying slot in a running-event final in which a U.S. National Team or Olympic Team is being selected:

1. If either athlete declines his or her position on the National Team/Olympic Team, that athlete will be named the alternate and the other athlete will assume the final available position.
2. If neither athlete declines their position, they will be given the option to determine the tie-breaker via coin toss or by run-off.
 - a. If both athletes choose the same option, that option will be utilized as the tie-breaker.
 - b. If the athletes disagree on the tie-breaker, the tie will be broken by a run-off.
 - c. If both athletes refuse to declare a preference regarding the method between a run off and coin toss in regards to how the tie is broken, the tie will be broken by coin toss.

Run-Off Protocol

USATF's Chief of Sport Performance, in consultation with the athletes and their coaches, will determine the time of the run-off depending on entry deadlines, travel, practice and competition schedules, and the best interests of the National Team/Olympic Team.

If the run-off also results in a dead heat, the tie will be broken by a coin toss.

Coin Toss Protocol

USATF shall provide a United States Quarter Dollar coin with the image of George Washington appearing on the obverse hub of the

coin and an Eagle appearing on the reverse hub of the coin. Each athlete shall inspect the coin to ensure the obverse and reverse hubs of the coin reflect the images of George Washington and the Eagle, respectively.

The athlete with the highest world ranking according to the IAAF rankings as of 8 am PST on the date of the coin toss shall declare his or her choice of "heads" for the obverse hub or "tails" for the reverse hub. If the athlete with the highest world ranking chooses not to declare his or her choice, that athlete shall be assigned the choice of heads for the obverse hub of the coin. The other athlete shall be designated, by default, the choice either: 1. Not chosen by the highest-ranking athlete or 2. Tails should the highest-ranking athlete choose not to declare his or her choice.

The choices shall be confirmed by a representative chosen by USATF. Once the choices have been made and confirmed by the USATF representative, each athlete shall face each other and the USATF representative shall bend his or her index finger at a 90 degree angle to his or her thumb, allowing the coin to rest on his or her thumb. In one single action, the USATF representative shall toss the coin into the air, allowing the coin to fall to the ground.

Once the coin has fallen to the ground, the USATF representative shall, without touching or lifting the coin, view the coin and determine whether the coin has landed on the obverse or reverse hub. In the event that the coin does not fall completely on either the obverse or reverse hub, the USATF representative shall repeat the toss process as described above.

The athlete who chose the hub that is displayed shall be declared the winner by the USATF representative.

In the event either or both athlete refuses to participate in the coin toss, the USATF representative shall assign the athlete with the highest world ranking "heads" and the other athlete "tails" and shall toss the coin in the presence of at least two witnesses and declare the winner pursuant to the procedure set forth above.

- Field events: 1) Athletes participating in the final round of competition will be assigned a rank based upon their place-finish in the finals (top eight finishers, plus ties) of that event; 2) Athletes that do not qualify for the finals will

establish their rank order position based on the athlete's best mark achieved in the qualifying round. An athlete's ranking will be based upon the highest round completed by an athlete. If there is a tie in a field event, excluding the high jump and pole vault, the tie will be broken using IAAF rules. Ties in the high jump and pole vault will be broken by a jump off, immediately after the event.

- Marathon/Men's 50km Race Walk - Athletes participating in the 2012 U.S. Olympic Team Trials - Marathon, and the 2012 U.S. Olympic Team Trials - Men's 50km Race Walk will be assigned a rank based upon their place- finish in that event.

2. Olympic Standard: In order to be eligible to participate in the 2012 Olympic Games, an athlete must have achieved an Olympic "A" or "B" standard (see section I.A.2 above for minimum eligibility requirements). The qualification period in which an athlete must achieve the Olympic "A" or "B" standard is detailed below:

- Men's and Women's Marathon - January 1, 2011 - January 14, 2012. Marathon standards must be met on an IAAF approved course.
- Men's 50km Race Walk - January 1, 2011 - June 17, 2012. Race Walk standards must be met on an IAAF approved course.
- 10,000m and Combined Events - January 1, 2011 - End of the athlete's individual event at the 2012 U.S. Olympic Team Trials - Track & Field or July 1, 2012, whichever comes first.
- All other individual track and field events - May 1, 2011 - End of the athlete's individual event at the 2012 U.S. Olympic Team Trials - Track & Field or July 1, 2012, whichever comes first.

The top Ranked Order Finishers as defined in I.C.1 (maximum of 3) who have achieved the Olympic "A" standard (see exception in item (b) below) by the end of their **individual** event qualification period (defined above) will be nominated to the 2012 U.S. Olympic Team on July 2, 2012 provided they have met the entry guidelines listed below. (See Attachment B for potential nomination scenarios)

Per IAAF rules:

- The U.S. may enter a maximum of three (3) athletes per individual event/per gender provided they all have met the Olympic "A" qualifying standard for the respective event within the applicable qualifying periods listed above. Entries must be delivered to the USOC on July 2, 2012 thus athletes must have met the qualifying standard by the deadlines set forth in these selection procedures.
- In the event that one or more athletes described in I.C.2 have not met the Olympic "A" qualifying standard by the end of their individual event qualification period, athlete(s) who have achieved the Olympic "A" qualifying standard will be nominated to the Olympic Team based on rank order of finish at the 2012 U.S. Olympic Team Trials – Track & Field, the 2012 U.S. Olympic Team Trials – Men’s 50 km Race Walk, or the 2012 U.S. Olympic Team Trials – Marathon subject to the following:

II. DISCRETIONARY SELECTION (if applicable)

A. Provide rationale for utilizing discretionary selection (if any):

Relays

There shall be a maximum of sixteen (16) qualified teams in each relay event, based on the aggregate of the two fastest times achieved by national teams in the qualification period of January 1, 2011 to July 1, 2012. For the results to be valid for qualification purposes, a minimum of three international teams must compete in the race. On July 3, 2012, the final rankings (top 16 teams) in each of the relays will be published on the IAAF website. The IAAF will inform the NOCs of each of these national teams of their eligibility to compete in the 2012 Olympic Games relay competitions.

- Relay Team members are the only athletes who may be selected utilizing discretionary selection. The IAAF allows countries to enter up to six (6) relay pool participants, per gender, for each of the 4x100m and 4x400m relays. Should USATF enter individual athletes and a relay team in the same distance, the entered individual athletes (3 plus the replacement athlete) must be included in the total of six (6) athletes entered for the relay event. (Example: If the U.S. enters three (3) athletes plus a replacement athlete in the men's 100m these four (4) athletes must be entered as part of the six (6) man relay pool for the men's 4x100m.) This allows USATF to select two (2) additional athletes to fill out the remaining relay pool slots. It is imperative that the remaining two (2) discretionary slots, per gender, per relay event, in the relay pool are filled by athletes who have the ability and skills that complement the relay pool members who were selected by their placement in the 100m and 400m running events, respectively. Selection to the

relay pool does not automatically guarantee that an athlete will compete in the relay. Any Olympic Team member may be added to the relay.

B. List the discretionary criteria and explain how they will be used (if any):

- The decision to place the two (2) discretionary athletes, per gender and per event, in the relay pool will be based on the 2012 U.S. Olympic Team relay coach's judgment of that athlete's ability to contribute to the success of the relay team. The 2012 U.S. Olympic Team relay coach will take the following into consideration: (1) the athlete's ability to pass and receive the baton with either hand; (2) the athlete's ability to run the turn and/or straight leg; (3) the athlete's availability and willingness to attend any relay camps and/or practices; (4) the athlete's times run in the appropriate distances; and (5) the athlete's World Championships, Pan American Games and Olympic Games relay experience.
- In order to qualify for nomination to the 2012 U.S. Olympic Team Relay Pool (remaining two slots, per gender and per event) athletes must compete in the 2012 U.S. Olympic Team Trials - Track & Field, unless excused for unforeseen circumstances prior to the commencement of the 2012 U.S. Olympic Team Trials - Track & Field by the chair of the appropriate sport's committee after consultation with the Chief of Sports Performance and the 2012 U.S. Olympic Team relay coach. Should an athlete experience an unforeseen circumstance during the 2012 U.S. Olympic Team Trials - Track & Field, the athlete must submit a waiver request within two (2) hours of the unforeseen circumstance to the appropriate sport's committee chair. This provision will only be utilized in extreme cases and athletes must have demonstrated Pan American Games, Olympic Games and/or World Championships medal performances. All waivers must be approved by the Board of Director's Competition Committee.

C. Discretionary Selection Committee

Provide the name of the committee that will be responsible for making discretionary selections, along with a complete list of the members currently serving on the committee and their titles:

The 2012 U.S. Olympic Team relay coach, in ongoing communication and consultation with the Chief of Sports

Performance and a non-competing international athlete to be selected by the Athlete Advisory Committee, will make the final selection of the remaining two (2) relay pool athletes, per event and per gender.

III. REMOVAL OF ATHLETES

- A. Prior to acceptance of nominations by the USOC, USA Track & Field has jurisdiction over potential nominees.

An athlete who is removed from the 2012 U.S. Olympic Team pursuant to this provision has the right to a hearing per the USATF Bylaws, Article 14 and Regulation 21 or the USOC's Bylaws, Section 9.

A 2012 U.S. Olympic Team member who is accepted by the USOC is subject to the USOC Code of Conduct and Grievance Procedures.

- C. An athlete may be removed from nomination to the 2012 U.S. Olympic Team or from the 2012 U.S. Olympic Team at any time for violation of IOC, WADA, IAAF, USADA and/or USOC anti-doping protocol, policies and procedures, as applicable. All waivers must be approved by the Board of Director's Competition Committee.

- B. Describe how the replacement athlete(s) will be selected, should a vacancy occur:

- i. Prior to acceptance of nominations by the USOC:

An athlete who withdraws from the 2012 U.S. Olympic Team due to illness, injury or for any other reason, or fails to abide by the USATF Statement of Conditions prior to nomination to the USOC will be replaced by the next eligible athlete who has achieved the Olympic qualifying standard, in rank order finish from the applicable selection competition per I.C.2. The replacement athlete will be required to sign a Statement of Conditions. (See Attachment A).
