

# **National Officials Committee Equipment and Facilities Specifications Subcommittee**

**Date:** November 14, 2016

**From:** Equipment and Facilities Specifications Subcommittee Chair

**To:** National Officials Committee Secretary

**Subject: 2016 Activity Report for the Equipment and Facilities Specification Subcommittee**

During the year two newsletters, one in February and one in October were sent out to Throwing Officials, Technical Managers and Implement Inspectors and other interested officials. All officials that are certified as Implement Inspectors at any level automatically receive the newsletter. Also, all Certification Chairs receive a copy. Anyone else wishing to receive the newsletter must request a copy. Each newsletter was sent to approximately 800 subscribers.

One issue came up this year. Jon Turner at Drake found a hammer that may well have exceeded the CG limit. With the wire removed and the swivel held horizontally, Jon let go and the hammer rotated away from him. We had a similar hammer at the Olympic Trials, but had no gauge to check the CG with, so we had to let it in.

Any rules changes this year will be discussed at our meeting on Thursday, December 1 at 3:00PM.
