

Drug Testing/ Record Protocol Flow Chart

Note: This document serves as a summary to the USATF Rules of Competition guidelines and the IAAF 2016-17 Competition Rules. For more specific requirements please reference either of those documents.

All drug-testing management falls under the responsibilities of the Associate Director of Anti-Doping. USATF adheres to IAAF Competition rules for drug testing and record ratification.

World Records

World Records (events recognized by IAAF) must be ratified via drug testing for U20 (formerly Junior) and senior level athletes immediately after completion of the athlete's event. This does not apply to youth and masters level events.

American Records

American Records (events outlined in USATF Competition Manual) for senior level athletes must be ratified via drug testing within 24 hours of the completion of the athlete's event. This does not apply to youth, U20 and master level events.

Any athlete who sets an American or World Record should immediately reach out to the Associate Director of Anti-Doping for direction on steps to ensure proper drug testing protocols necessary to ensure record ratification.

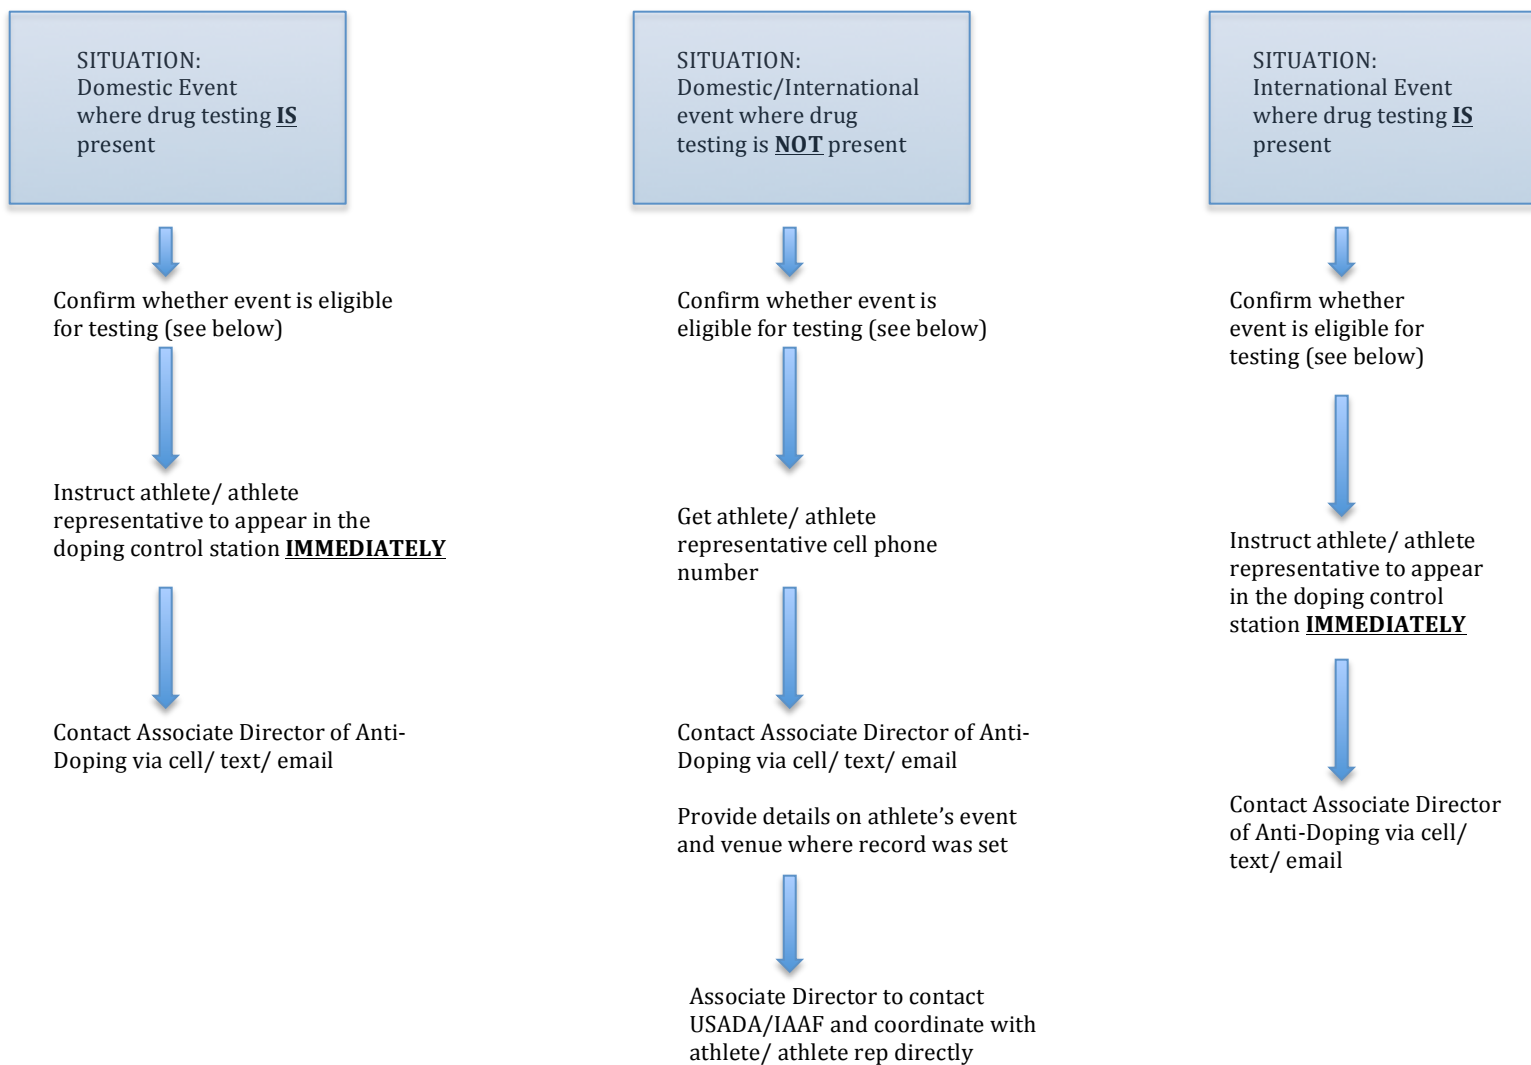

Primary Contact Information

Talia Mark
Associate Director, Anti-Doping
