**unlike with youtube where you sell space on your videos and channel page for advertising at a rate decided by google tiktok does not yet compensate most of its users for running ads on their posted photos as such tiktok influencers and brands don t have an intermediary or any set rates if they choose to work together brands make deals with influencers and prices can vary markedly depending on the circumstances however one thing is consistent in nearly all cases influencers get paid more if they have both a high engagement rate as well as a high number of followers brands have learned that you can easily buy followers who are of no practical value to anybody hence they are far more interested in you having genuine followers those who interact with your posts**

in this video you can clearly see that the user has generated some coins for their tiktok using this website and they were credited immediately to his account don t expect this much speed always because this website has a higher traffic now and therefore the server is a bit slow in functioning such as assigning the coins to the users a delay of up to one hour is possible at peak hours especially usa time 6pm to 12am

no you can t coins once purchased cannot be refunded in any case the only option is that use those coins to purchase virtual resources on tiktok if you still need some money urgently and all you have is a few coins on your wallet you can do one thing just ask your close friends or followers if they need diamonds or other resources for their page if they need you can sell it to them in return of real money this is the only way to make real money with tiktok and all other ways are fake and wastage of time

unfortunately there are no legitimate ways to get free tiktok coins on the tiktok app nor on any website or third party app tiktok coins cannot be earned anywhere and must be bought within the tiktok ios or android app with real world money
