In the original, Top Gun (1986), a young Cruise stars as the hot-shot pilot Pete "Maverick" Mitchell, as he and his co-pilot Goose (Anthony Edwards) take part in the Navy's top school for elite fighter pilots. Maverick likes to push it to the limit, but that ends up getting him in trouble and his confidence gets shaken following a tragic accident. But the happy ending prevails and he saves the day and gets the girl.

Top Gun remains a fan-favorite to this day, thanks to numerous factors including a star-making turn from Tom Cruise, memorable supporting characters like Anthony Edwards' Goose and Val Kilmer's Iceman, fantastic '80s tunes like "Danger Zone" and "Take My Breath Away" and incredible aerial sequences. Talk about a sequel has been swirling for years and now its arrival is imminent (after a few delays along the way).

The movie ends with Maverick proving that he is the 'top gun' following the death of his best friend 'Goose'. But when will *Beast* be released in cinemas and who is in the cast?
